*Helping you get to your
appointments safely and on
time*

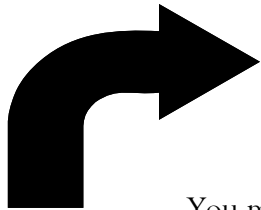

HOW TO USE OUR TRANSPORTATION SYSTEM

To make arrangements to use this system, it is best to tell the receptionist as you make your next appointment, that you will

need a ride.

Since our transportation system covers a large area, your appointment will need to be scheduled on the day service is available in your area to ensure space is available.

You may also call the Crisisline at 1-800-252-5554 for a ride. Space may not always be available, so call in advance.

If you have special needs...

Such as using a wheelchair or needing other assistance, please let us know when you make your appointment.

To help us serve as many people as possible, please...

Cancel your appointment at least 24 hours before your appointment time.

If at all possible, call the day before your appointment to confirm your ride.

Be ready 1 hour before your appointment. Your ride will beep twice. You should be ready to go. Your ride cannot wait due to time constraints to pick up other passengers.

RULES for RIDING in AGENCY VEHICLES

- No food or drink allowed in the vehicle.
- No smoking.
- No weapons.
- No foul language.
- Treat your driver and fellow passengers with respect.
- All riders must wear seat belts.
- No standing or changing seats with vehicle in motion.
- No children permitted.
